As we present the 2026 Township Budget, we want to acknowledge the continued financial pressures facing many of our residents. Rising household costs continue to impact families across our community. The Board of Commissioners understands these challenges and remains committed to delivering essential township services in a responsible and financially stable manner.

This year, the Township is experiencing significant increases across several critical areas. Costs associated with repairing and maintaining our stormwater and sanitary sewer systems continue to rise. Due to the Crozer Health system closure, the township had to obtain ALS ambulance services at a cost \$700,000, which was not budgeted last year. In addition, everyday operational costs—such as utilities, fuel, materials, insurance costs and contracted services—have also escalated.

To address these rising costs and continue providing the high level of services our residents expect, the 2026 Budget includes a **½ mill real estate tax increase**. For the average homeowner, this represents approximately **\$95 per year**, or about **\$8 per month**—roughly **\$.26 per day increase on the average assessment**. This increase is necessary to preserve core municipal services, fund essential infrastructure improvements, and maintain long-term financial stability.

The County Solid Waste Authority has once again increased its disposal fees, and the Sewer Authority has raised its charges as well. These are fee for service costs that are separate from the real estate taxes, but must be incorporated into our operating budget. In 2026, service charges will also adjust to reflect the increases. The rubbish fee will increase to **\$340**, or about **\$.94 per day**, which includes twice-a-week trash collection, recycling and leaf collection, and the sewer fee will increase to **\$450**, or about **\$1.25 per day**. The last increase was four (4) years ago in 2021 and since that time, the township has absorbed a 27% increase in sewer fees and a 56% increase in trash disposal fees. These adjustments are necessary to cover the rising costs directly billed to the Township for solid waste and sewage processing.

The proposed **2026 General Fund Budget total is \$28,680,861**. This budget includes essential replacements of vehicles and equipment for our Public Works and Police Departments. The Township will continue pursuing federal, state and county grants—such as Recreation, Recycling, Pedestrian Safety and Stormwater grants—to support important community projects.

Our Senior Citizen Rebate Program will continue for 2026, offering eligible seniors a total of **\$200 in rebates**—\$125 for sewer charges and \$75 for rubbish charges. This program remains an important resource for residents living on fixed incomes.
